PROFESSIONAL PROFILE

UX/UI Designer with over 5 years of experience in enterprise-level digital product design. Expert in establishing complex **Design Systems** and managing **Design Tokens** to enhance collaboration efficiency between design and development teams. Highly specialized in **Inclusive Design (WCAG 2.1)**, focusing on creating accessible, intuitive User Experiences that drive business outcomes in Banking, Insurance, and E-commerce sectors.

WORK EXPERIENCE

UX/UI Designer | Extend IT Resource Co., Ltd.

April 2022 – Present

- Design System Leadership:** Led the foundation of Figma Design Systems for enterprise projects like Insurverse and Roddonjai-TTB, ensuring UI consistency and reducing development time.
- End-to-End UX/UI Lifecycle:** Managed the full design process from User Research and Information Architecture to High-Fidelity Prototyping for high-traffic platforms.
- Accessibility Champion:** Implemented Inclusive Design and WCAG 2.1 standards for the BKI Web Revamp, ensuring digital accessibility for all user groups.
- Stakeholder Collaboration:** Partnered with Product Managers and Engineering teams to translate complex requirements into effective design strategies.
- Portfolio Management:** Executed UI design for corporate clients including Money DD, ThaiBev, and Singer, prioritizing mobile-first and responsive solutions.

UX/UI Designer | 1577 Home Shopping Co., Ltd.

October 2021 – June 2022

- Designed User Interfaces for E-commerce platforms (Web & App) by analyzing consumer behavior to optimize the user journey.
- Maintained brand identity across digital advertising and promotional media according to brand guidelines.

Graphic Designer | Running Connect Co., Ltd.

June 2020 – October 2021

- Developed Visual Identity and promotional materials for large-scale sports events, including infographics and digital marketing assets.
- Managed end-to-end merchandise and event branding from conceptualization to production.

TECHNICAL SKILLS & TOOLS

- Design Systems:** Atomic Design, Design System Governance, Design Tokens, Component Library Management.
- UX Research:** User Journey Mapping, Wireframing, Prototyping, Usability Testing, Information Architecture.
- Tools:** Figma (Expert), Adobe XD, Photoshop, Illustrator, Jira, Slack.
- AI Integration:** AI-Powered Design Workflow, GitHub Copilot, ChatGPT for Efficiency.
